

March 2018

Today your child has been given a special growing kit.

You can keep us updated on how your growing challenge is going at home by uploading photos and comments to the *Interactive Learning Diary*.

Good Luck!

**This term we have been learning about
Growing**

Challenge: Can you grow a Sunflower at home?

1. Empty the soil into the cup.
2. Plant your seed about 3cm deep.
3. Water your seed.
4. Now wait. (A seedling should appear 2-3 weeks later)
5. Remember to water your seed.
6. When it has grown bigger you could move it to a bigger pot or plant it out in a garden.

Who will grow the tallest?
