

Year 1

Tadpole's Promise

France and Germany Class
Term 5

What the children will be learning:

In Art, we will use drawing, painting and sculpture to develop and share our ideas, experiences and imagination. We will also develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space.

In Science, we will be learning about animals, including humans. We will learn about how animals change and grow and we will be learning about the life cycles of frogs, butterflies and chicks.

In History, we will use vocabulary to explain the passing of time.

In Maths, we will be learning about symmetry and in ICT, we will be using power-point to create and publish stories.

Additional activities:

We are expecting the arrival of the chick school on the 30th April. The eggs and the incubator will arrive and within the first couple of days, we will be watching our chicks hatch. We will look after them until they are collected on the 10th May.

Look out for further details of our fundraising event on Friday 11th May.

Useful websites:

Life cycle of a frog:

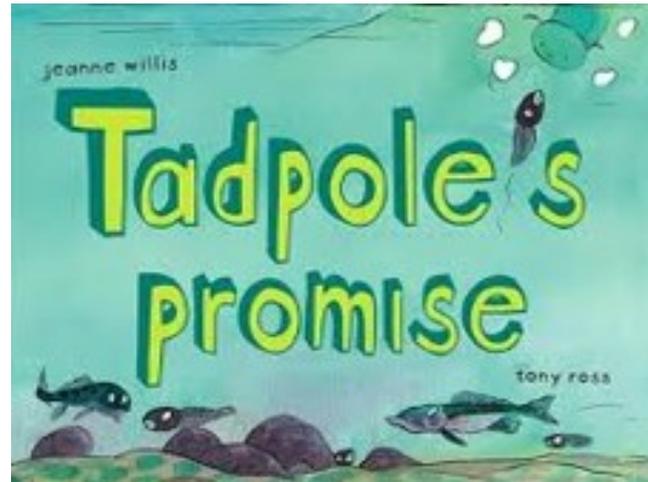

http://www.harcourtschool.com/activity/science_up_close/212/deploy/interface.html

<https://www.topmarks.co.uk/Spring/FrogLifeCycle.aspx>

<http://flash.topmarks.co.uk/3689>

Life cycle of a butterfly:

http://www.sheppardsoftware.com/scienceforkids/life_cycle/butterfly_lifecycle.htm

Our storytelling text this term is 'Tadpole's Promise'. This is a story about the life cycle of a frog and a butterfly. In our fiction sessions, we will be retelling the story, thinking carefully about how a story is organised.

In our non-fiction lessons, we will be writing explanations about the life cycle of a frog.

Fabulous Finish:

Come and join us for our
Fabulous Finish afternoon
24th May 2018

This is an opportunity for you to
take part in an activity
relating to our topic.

The personal learning goal being
developed this term is:

Honesty

Thoughtfulness
