

Year 2 (Term 1) Space Travellers Spain and Iceland Class

What the children will be learning:

In this unit, the children will be studying:

- Significant astronauts
- The Moon landings
- The International Space Station

In Art, we'll be finding out:

- how to draw portraits of significant people who have into Space.
- about cubism and how to create our own paintings using this style.

In History, we'll be finding out:

- where significant people and events fit into time.
- how to ask questions of what we'd like to learn about the past.
- what similarities and differences there are between periods of time.

In Geography, we'll be finding out:

- how to use aerial photos and google earth to recognise landmarks and features.
- how to use simple compass directions.

In Computing, we'll be finding out about:

- Programming and control -
Navigate around our world

During the topic, we will be focusing on:

History, Geography, Art
and Computing

The topic has been specifically written to help children reach the learning goals. They will be reading, writing, illustrating, working on their own and working in groups. Teachers will be checking and assessing to see how well the children have learnt through particular activities and asking them to explain their work. Your child might quite like to explain their work to you.

We already know the interest you take in your child's work so please encourage them to discuss the work they have done as the term progresses and let them teach you if they can.

We hope that the children will enjoy the topic and be successful in achieving the learning goals. You will have an opportunity to see the work completed by your child.

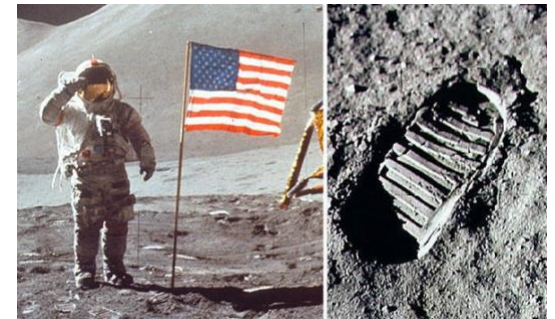

If you have any comments about the work your child has completed, please see your child's teacher.

Our English, Maths and Science work will be linked to our topic where appropriate.

Come and join us for our Assembly

Monday 16th October
at 2.15 pm.

Our Book for Fiction and Non-Fiction
